

MAGEE NATIONAL

—with the "Wonder Oven"

THE MOST PERFECT COMBINATION OF CONVENIENCE, EFFICIENCY, AND TIME-SAVING WHICH THE HOUSEWIFE HAS EVER KNOWN

GAS OVEN, COAL OVEN, IN ONE

COAL, wood or gas may be used, or either of the first, combined with gas, to secure any required degree of heat. The oven is always ready; can be heated to the desired temperature at once; food is beautifully done — on time; there are no complicated parts — no guesswork — no trouble. Simply one push of the lever does it all. Truly a miracle of helpfulness to the modern housewife. Send for the new illustrated booklet.

The Magee National is very compact (only 46 inches over all); it is exceptionally handsome, easily kept in order and cleanly to operate. Trimmed throughout in white enamel. — Glass or plain iron oven doors if desired.

BETHEL

Streets Littered with Debris After Fierce Storm.

A fierce tempest struck this village about 3:30 yesterday and in a minute's time the streets were strewn with limbs, branches and twigs from the many shade trees which adorn the village. As usual the power company and telephone company were losers. A tree at James A. Graham's residence was blown with such force against a pole of the power company that the pole snapped like a pipe stem. It was propped up pending the substitution of a stronger pole, but the village was in darkness last evening.
